"We delivered solid top line growth and narrowed our net loss during the quarter," commented, Yunlong Sha, Chairman and Chief Executive Officer of Puxin. "Net revenues grew in line with our expectations, increasing over 60% year-over-year as our net loss narrowed on both a sequential and year-over-year basis. Top line growth was driven by an organic increase in student enrolments and in part by revenue from Global Education which reached a historical high during the quarter, its third consecutive quarter of positive revenue growth following its acquisition in August last year. We also continued to invest in expanding our online service offerings and product mix to diversify revenue streams and create new growth drivers."

"We slowed the pace of acquisitions during the quarter in response to recently announced government policies. We support the government's new policies and believe that enhanced regulation will create a stronger and more sustainable market environment over the long term. We are confident in our strategies and believe we will be well positioned to benefit from a well-regulated market by leveraging our extensive experience in completing acquisitions and rapidly improving operations and management of acquired schools. Our ability to generate solid organic growth while integrating and restructuring a number of acquired schools demonstrates the effectiveness of Puxin Business System^[3], which we use to analyse a school's growth potential and formulate plans to improve their performance."

Financial Results for the Third Quarter of 2018

Net Revenues

Net revenues increased by 60.1% to RMB669.7 million (US\$97.5 million) from RMB418.4 million in the third quarter of 2017. This increase was primarily driven by increases in student enrollments. Student enrollments increased by 48.8% from 365,810 in the third quarter of 2017 to 544,253 in the same period of 2018.

On January 1, 2018, the Company adopted the modified retrospective method of FASB Accounting Standards Codification (ASC) Topic 606 ("Topic 606"), which relates to revenue from contracts with customers. Results for reporting periods beginning after January 1, 2018 are presented under Topic 606, while prior period amounts are not adjusted and continue to be reported under the accounting standards in effect for the prior period.

Cost of Revenues

Cost of revenues increased by 44.7% to RMB374.6 million (US\$54.5 million) from RMB258.8 million for the same period in 2017, primarily due to an increase in rental costs and teacher compensation. Non-GAAP selling and marketing expenses, which excludes share-based compensation expenses, increased by 62.8% to RMB227.6 million from RMB139.8 million in the third quarter of fiscal year 2017. The increase was primarily due to increases in brand promotion expenses and selling and marketing staff compensation.

Total share-based compensation expenses allocated to related operating costs and expenses increased by 44.9% to RMB19.3 million (US\$2.8 million) from RMB13.3 million in the same period of 2017. The increase was mainly due to new grants of options to employees in 2018.
